

REMARKS

The present application was filed January 13, 2006, as a national stage application of PCT/EP2004/007802, filed 14 July 2004. The application was filed in German with only one claim (claim 1, in German) and a Preliminary Amendment cancelling claims 2-16. Applicants did not receive a notification of missing parts, but nevertheless filed a translation of the application and an executed oath/declaration by the inventors on June 13, 2007.

In the present preliminary amendment, applicants request that pending claim 1 be cancelled and new claims 17-32 be added. Claims 17-32 are substantially the same as the claims pending in the corresponding international application, PCT/EP2004/007802, except for amendments to remove multiple dependency and to improve the form and grammar of the claims. Claims 17-32 add no new matter that goes beyond the international application as filed. Applicants request entry of this preliminary amendment.

No fees are believed to be due with respect to the filing of this Preliminary Amendment. If any fees are due, please charge our Deposit Account No. 11-0171 for such sum.
